ABSTRACT

This directory provides a descriptive list of food and nutrition resource organizations in the District of Columbia, Maryland, and Virginia. Programs described are offered by business, educational institutions, the Federal government, State governments, health related organizations, special interest groups, and trade and professional associations. Extensive listings for libraries, information services, and data bases which provide information on food and nutrition are also included. (APM)

INTRODUCTION

Human nutrition is a broad discipline that brings together areas of basic sciences, clinical experiences of practitioners and the societal - behavioral environment affecting individuals. The practice of nutrition depends not only on application of principles from many sciences, but also current forces serving as continual change agents. This has been reflected in issues raised in the national scene such as control of specific dietary diseases, prevention of dietary deficiencies and improved nutrition education. In today's atmosphere of consumerism, people have become interested in nutrition and want to know more about their food and what is in it. Some responses have been to label, fortify and date foods. More changes will inevitably occur, most of them arising from consumer interest. The result will be better food and nutrition for the American people.

It is evident that the field of nutrition requires a broad interdisciplinary approach. The range of diciplines can include food technology, agriculture, sociology, psychology, economics, law, medicine, communications and many others. The programs involved cover research, health professional services and education. The activities are almost too numerous to mention. Despite the multitude of programs and activities, to-date, little progress has been made to document the sources of all the multiple efforts providing services in food and nutrition. To our knowledge, after an exhaustive search, no single source has identified these programs. Although some documents exist, they are limited in scope and a comprehensive referral directory in nutrition is vitally needed. In response to this need and in hopes of establishing a model for future identification of nutrition programs throughout the nation, it was decided to begin by compiling data focusing on Washington, D.C.

In September, 1979 a contract was awarded to the Dahlgren Memorial Library, Georgetown University Medical Center, by the Food and Nutrition Information Center, U.S. Department of Agriculture, to develop a Directory of Food and Nutrition Programs in the District of Columbia, Maryland and Virginia. The primary purpose was to assemble, in a single source, a comprehensive listing and descriptive profile of programs, services and information sources of interest to a broad spectrum of users. The objective was to produce a source which addressed the diversity of food and nutrition, and could serve as a model for future identification of regional and national programs.

Those of us in the information business have long recognized the importance of bridging the gap between consumers, health practitioners and librarians. It is hoped that by compiling and editing this publication, to be used by many interested individuals, the Dahlgren Memorial Library staff has contributed toward improved communication between those who seek information and those who provide information in this vital field. Therefore, although we have only begun to reach the vast array of personal and organizational resources that

exist, this project reflects the enhanced awareness of librarians to the needs of users seeking information on food and nutrition. In addition, it is hoped that the Directory provides a valuable entree to the interest of consumers and it can be tapped to address the complex, societal problems before us involving foods.

Naomi C. Broering

Medical Center Librarian

PREFACE

This Directory has been designed to draw together into one source the diverse programs, services and information sources from business, education, government, consumer groups, health-related organizations, trade associations and professional societies. Although the focus is primarily centered on the three jurisdictions, the District of Columbia, Maryland and Virginia, some national organizations, whose programs and services were judged to be of sufficient interest, were also included.

The steps undertaken to complete this study were to: (1) identify programs through a number of published sources and personal contacts; (2) establish a respondent universe; (3) survey respondents through a mailed questionnaire; (4) collect and analyze responses; (5) input data to a computer; and (6) generate the final Directory.

The sources used to identify programs and establish the respondent universe covered a wide range of publications and the services of two nutrition consultants and are listed below:

Barrons guide to the two year colleges (1978)
County agents directory (1978)
Directory of cancer research information resources (1979)
Directory of nutrition services: District of Columbia (1978)
Directory of online databases (1980)
Directory of special libraries and information centers (1977)
Encyclopedia of associations (1979)
Encyclopedia of information systems and services (1978)
Federal and non-federal resources for nutritional information and services, a selected list (1979)
Federal executive directory (Jul/Aug 1980)
The health care directory (1977/78)
Index of nutrition education materials (1977)
Information resources database, National Referral Center, Library of Congress
Information resources for food science and human nutrition (unpublished paper by Robyn Frank, Director, Food and Nutrition Information Center)
Medical and health information directory (1977)
Mental health directory (1977)
National directory of addresses and telephone numbers (1977)
National directory of state agencies (1976)
Prototype inventory: Federal food, nutrition and agriculture programs (March 1979)
Research centers directory (1979)
Society for nutrition education directory
Standard medical almanac (1977)

Consultants: Janet Grommet, PhD in Human Nutrition, Georgetown University School of Medicine, Department of Community and Family Medicine; and
Geraldine Scott, RD, Coordinator of Nutrition and Dietetics, Georgetown University Hospital

The original respondent universe was close to 600 potential programs and services. Of those, a little over 200 organizations were sent a questionnaire directly. The remaining organizations were first queried by letter to determine if they had programs, and if a positive response was received each was sent a questionnaire. A total of 353 questionnaires were mailed. The final Directory contains 160 entries and is a reflection, for the most part, of those questionnaires completed and returned by survey respondents.

The Directory is organized into three sections: ENTRIES, TITLE INDEX and SUBJECT INDEX. The arrangement and content are described below.

The ENTRIES section comprises the main body of the Directory and is arranged by broad categories. Within each category the programs are sorted alphabetically by title and each profile is assigned an entry number. Most of the categories in the ENTRIES section are self-explanatory, such as: business; education; government, federal; government, state; and trade and professional associations. In the Health-Related Organizations category, programs such as health clinics and diet workshops were included even though it is realized that many of the programs in the entire Directory have some health-related function. Under Special Interest Groups were included consumer advocacy organizations, labor unions and lobby groups. Although many organizations especially colleges and universities have libraries, it was decided to include in the Libraries/Information Services sections the three national libraries, all of which are located in this geographic area and information centers and clearinghouses. Databases were selected for inclusion in the final category if the information provided whether bibliographic, referral or numeric, was relevant to the fields of food and nutrition. The online producers and/or vendors who provide access to the databases are: Bibliographic Retrieval Services, Inc. (BRS); Lockheed Information Services (LIS); the National Library of Medicine (NLM); and the Systems Development Corporation (SDC).

The TITLE INDEX is an alphabetic listing by title of all the programs, services and information sources in the Directory and maps to the entry number.

The SUBJECT INDEX was derived from the controlled vocabulary of the Food and Nutrition Information Center Terms and References as of March 24, 1980. An effort was made to index each entry with a minimum of 3 terms; some programs with a variety of services reflect as many as 8 to 10 terms. As in the TITLE INDEX, the SUBJECT INDEX maps to the entry numbers. Only a few subject headings were added to the controlled vocabulary to enrich the access to the information provided from the questionnaires and these included terms such as ADA-approved training and NET.

This Directory represent a collaborative effort between the staffs of the Food and Nutrition Information Center (FNIC) and the Dahlgren Memorial Library, Georgetown University Medical Center. Special thanks are extended to Robyn Frank and Elaine McLaughlin of the FNIC for their support of this project through their subject expertise and suggestions of programs and services to be included in the study. Thanks are also extended to Susan Schweitzer and Julie Henry of the Dahlgren Memorial Library staff who ably assisted in the data entry phase and online verification of computer input.

Reference Librarian

1
GENERAL FOODS CORP. CONSUMER CENTER
250 North Street
White Plains, NY 10625

Contact Person : None listed.
Telephone : 914-638-2727

PURPOSE: Provides information about food, nutrition, diets, allergies for health professionals and consumers through a variety of publications.
CLIENTELE: Public; physicians, dentists, nurses; food service personnel.
PUBLICATIONS: Publishes "Nutrition Information for General Foods Food Service Products" (1979-80 edition) and various other pamphlets.

2
GERBER PRODUCTS CO.
445 State Street
Fremont, MI 49412

Contact Person : None listed
Telephone : 616-928-2000

PURPOSE: Undertakes extensive corporate research in food processing, nutrition and formulation of foods for infants and small children.
CLIENTELE: Public.
SERVICE AVAILABILITY: Monday-Friday.
ANNUAL EVENTS: 2 symposia; 4 seminars.
RESEARCH: 11-20 projects $10,000-20,000 funded per year.
LIBRARY: Interlibrary loan service.

3
GIANT FOOD, INC. CONSUMER AFFAIRS
P.O. Box 1804
Washington, DC 20013

Contact Person : Odonna Mathews
Telephone : 301-341-4364

PURPOSE: Provides printed information on good nutrition for the food dollar, recipes and shopping tips. Involved in a pilot nutrition education program, "Foods For Health," in cooperation with the National Heart Lung and Blood Institute. Offers product labeling and shelf labeling of special diet information. Sponsors radio spots on nutrition information for consumers.
CLIENTELE: Public.
SERVICE AVAILABILITY: Monday-Friday.
CONTACT METHOD: Walk-in.
PUBLICATIONS: Various pamphlets on diet and nutrition, including the series "Foods For Health."

COMMITTEES: Consumer advisory boards (4, in different regions); labeling committees (internal and external).
ANNUAL EVENTS: 52 lectures.
RESEARCH: 1-10 projects over $20,000 funded per year.
EDUCATIONAL SUPPORT: 1 scholarship(s) per year at $2500.

+44+
SAFEWAY STORES, INC. MANAGER-CONSUMER REL.
6000 Columbia Park Rd.
Landover, MD 20785
Contact Person : Crispin Littleha
Telephone : 301-341-6550

PURPOSE: Provides generic information about food and nutrition to customers through brochures, public service announcements, dial SAFEWAY, lectures, tours, and classes. Handles customer complaints and inquiries about food and nutrition.
CLIENTELE: Public.
SERVICE AVAILABILITY: Monday-Friday.
CONTACT METHOD: Walk-in.
PUBLICATIONS: Various brochures upon request.
ANNUAL EVENTS: 30 lectures.
LIBRARY: 50 volumes, 10 journal subscriptions, 5 audiovisual progra 500 vertical file items.

+45+
WASHINGTON GAS LIGHT CO. COMMUNITY AFFAIRS
1100 H Street, NW
Washington, DC 20080
Contact Person : Carl E. Jenkins
Telephone : 202-634-6306

PURPOSE: Provides information on budget food preparation and shopping.
CLIENTELE: Public; senior citizens; Low-income.
SERVICE AVAILABILITY: Monday-Friday.
CONTACT METHOD: By appointment.
PUBLICATIONS: Monthly recipe mailout program to over 3,000 consumers.
ANNUAL EVENTS: 6 workshops.
RESEARCH: 1-10 projects under $10,000 funded per year.

6
ALLEGANY COMMUNITY COLLEGE
P.O. Box 1695
Cumberland, MD 21502

Contact Person : Hugh Malamphy, P
Telephone : 301-724-7700

PURPOSE: The Nutrition Education Program for Senior Citizens is designed to provide nutrition experiences which will help individuals in solving problems and obtaining knowledge about their diet and health. Trained nutrition instructors are available to provide this assistance through a series of discussion groups, where senior citizens can meet and share concerns.
Also offers a Food Service Sanitation program.
PUBLICATIONS: Many pamphlets pertaining to the Senior Citizen Nutrition Education Program, including shopping guides, weight control, nutrition information and basic food guidelines; a newsletter put out by the Food Service Sanitation Program. A free listing of these materials is provided upon request.
COURSES: Food Service Sanitation (has a registration fee).
FACULTY: 2 part-time in Food Service Management; 1 part-time in Nutrition/Dietetics.

7
AMERICAN UNIV. SCHOOL OF NURSING
Mass. & Nebraska Ave.
Washington, DC 20016

Contact Person : Mildred Randall
Telephone : 202-686-2430

PURPOSE: Offers courses in normal nutrition for Nursing students, general university students and Health-Management majors master's program.
FACULTY: 1 full-time, 1 part-time in Nutrition/Dietetics.

8
BLUE RIDGE COMMUNITY COLLEGE

Weyers Cave, VA 24486

Contact Person : J.C. Phillips
Telephone : 703-234-9261

PURPOSE: Offers individual classes in the food and nutrition field but no specified nutrition program as such.
ANNUAL EVENTS: 3 lectures.
LIBRARY: 38000 volumes, 453 journal subscriptions, 900 vertical file items. Open to the public. Interlibrary loan ser
EDUCATIONAL SUPPORT: 98 scholarship(s) per year at $3969.
COURSES: Nutrition I; Nutrition II; Food Sanitation.
FACULTY: 1 part-time in Health; 1 part-time in Nutrition/Dietetics

9
COMMUNITY COLLEGE OF BALTIMORE
2901 Liberty Hgts. Ave
Baltimore, MD 21215

Contact Person : Genevieve Barnes
Telephone : 301-396-1954

PURPOSE: Offers two American Dietetic Association approved dietetic programs: Dietetic Assistant as a one year certification; Dietetic Technician, Food Service Management Specialization as two year Associate in Arts degree programs.
PUBLICATIONS: Pamphlets are available, describing each program.
LIBRARY: Open to the public. Interlibrary loan service.
DEGREES: A.A. in Nutrition/Dietetics.
COURSES: Nutrition for Health Sciences; Orientation to Dietetics; Foodservice Manager Training and Certification in Food Sanitation; Nutrition Care (I and II); Dietetic Assistant Practicum; Foodservice Management (I-IV); Foods; The Health Field; D tetic Field Experience; Principles of Supervision; Medical Writing.
ADA TRAINING: Offered.
FACULTY: 2 full-time, 10 part-time in Nutrition/Dietetics.

10
GEORGE WASHINGTON UNIV. MEDICAL CENTER
2300 Eye St., NW
Washington, DC 20037

Contact Person : Fred Leonard
Telephone : 202-676-2995

PURPOSE: An accredited medical school, community service organization (clinic) as well as a research and information facility. Has undertaken two research projects to date dealing with nutrition, but no established nutrition programs at present. Affiliated with the Veterans Hospital , Naval Hospital. Children's Hospital, the Washington Hospital Center and Walter Reed Army Hospital.
LIBRARY: 70000 volumes, 1380 journal subscriptions, 900 audiovisual programs, 100 vertical file items. Open to the publ Interlibrary loan service.
COURSES: Health Care Sciences.

11
GEORGETOWN UNIVERSITY SCHOOL OF MEDICINE
3900 Reservoir Rd, NW
Washington, DC 20007

Contact Person : Aaron Altschul,
Telephone : 202-625-2018

PURPOSE: First year medical students receive instruction in clinical nutrition as part of the core course, Introduction to

Clinical Sciences. Senior medical students may choose from a variet of electives, among which are two nutrition-related projects. The first elective, Clinical Research Study in Diet Management, offers the student an opportunity to study the way in which nutriti affects the health of the individual and to devise mechanisms for dietary change in an effort to realize an improved level of health. The second elective, Molecular Nutrition and Sensory Disorders, provides training in nutrition as related to metabolism of trace metals and as related to food and food intake in anorexia and obesity. The student will see patients with disorders of taste and smell as primary problems or as related to cancer and metabolic disorders. The student will learn the measurement of taste and smel function, dietary evaluation of major and minor nutrients, and management of patients with nutritional and taste and smell dysfunction.
LIBRARY: 101500 volumes, 1400 journal subscriptions, 999 audiovisual programs. Open to the public. Interlibrary loan s
COURSES: Clinical nutrition; Clinical research study in diet management; Molecular nutrition and sensory disorders.

12
GERMANNA COMMUNITY COLLEGE
P.O. 339
Locust Grove, VA 22508

Contact Person : None listed.
Telephone : 703-399-1333

PURPOSE: Offers one course each quarter under the Nutrition Education training program. Funded through the State Department of Education for employed school food service personnel.

13
HOOD COLLEGE

Frederick, MD 21701

Contact Person : Donna L. Cowan,
Telephone : 301-663-3131

PURPOSE: Offers a B.S. in Home Economics with concentration in 1) Food & Nutrition, 2) Coordinated Undergraduate Program in General Dietetics and an M.S. in Home Economics with specialization in Nutrition. Affiliated with the American Dietetic Association and the American Home Economics Association.
ANNUAL EVENTS. 1 lecture; 2 workshops.
LIBRARY: 130000 volumes, 950 journal subscriptions, 328 audiovisual programs, 900 vertical file items. Interlibrary loan service.
EDUCATIONAL SUPPORT: 5 scholarship(s) per year at $1500.

DEGREES: B.S., M.S. in Nutrition/Dietetics.
COURSES: Food Service Management: Role of Dietician in Food Delivery Systems, Foodservice Systems Management, Current Trends in Foodservice Systems Management, Clinical Experiences in Foodservice Systems Management, Seminar in Foodservice Systems Management. Foods: Science of Foods, Basic Principals of Food Preparation, Consumer Food Issues. Dietetics/Nutrition: Nutrition, Nutrition & Cultural Patterns, Ethnic foods & Eating Habits, Career Seminar, Advanced Nutrition, Nutrition Throughout the Life Cycle, Clinical Nutrition, Role of Dietition in Health Delivery Systems, Nutrition Counseling Techniques, Nutrition Education, Current Trends In Clinical Nutrition, Clinical Experience in Clinical Nutrition, Seminar in Clinical Nutrition, Human Nutrition, Nutrition in the Community.
FACULTY: 3 full-time in Nutrition/Dietetics.

14
HOWARD UNIVERSITY, COLLEGE OF MEDICINE
520 W St., NW
Washington, DC 20059
Contact Person : Dr. Lalita Kaul
Telephone : 202-636-6300

PURPOSE: Nutrition Courses are among those offered to Freshmen, Sophomore and Senior Medical students.
MATERIALS DISTRIBUTED: Variety of materials from: Dairy Council; USDA; NSF; and AMA.
ANNUAL EVENTS: 1 lecture; 1 seminar; 1 continuing education program
LIBRARY: Open to the public.
COURSES: Applied Nutrition in Medicine; Clinical Diet Therapy.
FACULTY: 1 full-time in Nutrition/Dietetics.

15
HOWARD UNIVERSITY, DEPT. CLIN. NUTRITION
Annex I Bryant & 6th N
Washington, DC 20059
Contact Person : Lillie Williams
Telephone : 202-636-6238

PURPOSE: Offers a coordinated undergraduate program in Medical Dietetics. Clinical practice in health care facilities is coordinated with the didactic component of professional courses so that when students graduate they are eligible to take the national registration examination. Affiliated with the American Dietetic Association for accreditation. Students have clinical experiences in Howard University Hospital

and other health care facilities in the area.
LIBRARY: Open to the public. Interlibrary loan service.
DEGREES: B.S. in Nutrition/Dietetics.
COURSES: Clinical Dietetics I, II, III, IV (credits 8, 10, 10, 9, resp.); Survey of Dietetics (1 Credit); Nutrition and Community Health (4 Credits); Organization and Management (4 credits). Foods and regular nutrition courses are taken in the School of Human Ecology.
ADA TRAINING: Offered.
FACULTY: 4 full-time in Nutrition/Dietetics.

16
JOHN TYLER COMMUNITY COLLEGE
Chester
VA 23831

Contact Person : Dr. Freddie Nich
Telephone : 804-748-6491

PURPOSE: Offers a one-year certificate program in Food Service Management (Cafeteria Management); an A.A.S. program in Hotel-Restaurant Institutional Management in planning stage and a Nutrition Education Training Program for school food service personnel. Affiliated with the Virginia Community College System.
PUBLICATIONS: John Tyler Community College Catalog (revised annually).
COMMITTEES: School Food Service Advisory Committee.
LIBRARY: 27500 volumes, 295 journal subscriptions, 167 audiovisual programs. Open to the public. Interlibrary loan se
COURSES: For course description and guidelines, please see catalog and also State Curricula Guide. Courses offered: Food Science (3); Principles of Food Preparation (2); Nutrition (2); Quantity Foo Preparation (3); Sanitation (1); and Catering (1).
FACULTY: 1 full-time, 1 part-time in Food Science; 1 full-time in Food Service Management; 10 full-time in Health; 1 full-time, 1 part-time in Nutrition/Dietetics.

17
JOHNS HOPKINS UNIV. SCH. HYG. & PUBL. HLTH.
615 N. Wolfe St.
Baltimore, MD 21205

Contact Person : George G. Graha
Telephone : 301-955-3734

PURPOSE: The Nutrition Program provides post-graduate education in public health nutrition. Students are admitted to the program who hold a degree in nutrition or in the health sciences and who wish to receive graduate level training in

the application of nutrition science to public health practice either domestically or internationally.
PUBLICATIONS: Course catalog with program description.
LIBRARY: 240000 volumes, 5000 journal subscriptions. Interlibrary loan service.
DEGREES: M.S., Ph.D. in Health.
COURSES: Nutrient requirements; Physiology and Pathology of Nutrition; Nutrition surveys and surveillance; Nutrition Planning and Readings in Nutrition.
FACULTY: 5 full-time in Nutrition/Dietetics.

18
MEDICAL COLLEGE OF VIRGINIA HOSPITALS
Box 294 MCV
Richmond, VA 23298
Contact Person : Ann Robbins
Telephone : 804-786-9109

PURPOSE: Offers a post-baccalaureate program, accredited by the American Dietetic Association, which prepares students for professional membership in ADA.
ADA TRAINING: Offered.

19
MOUNTAIN EMPIRE COMMUNITY COLLEGE
Drawer 700
Big Stone Gap, VA 24219
Contact Person : Patricia Collier
Telephone : 703-523-2400

PURPOSE: Offers a one-year program in Food Service Management with a specialization in cafeteria management. Leads to a certificate.
PUBLICATIONS: Mountain Empire Community College bulletins on the Program in Food Service Management.
ANNUAL EVENTS: 15 lectures; 20 continuing education programs.
LIBRARY: Open to the public. Interlibrary loan service.
COURSES: Nutrition (I & II); Principles of Food Preparation; Sanitation; Quantity Food Preparation (I & II).
FACULTY: 2 part-time in Food Service Management.

20
NORFOLK STATE UNIVERSITY
Com. Health & Rehab.
Norfolk, VA 23504
Contact Person : Jeanette Johnson
Telephone : 804-623-8666

PURPOSE: Offers a 4-year program leading to Bachelor's

of Science in Food Science and Nutrition with the following options: Food Science and Nutrition (General Dietetics, Plan 4); Geriatric Nutrition (Plan 4); Food Service Management. Affiliated with the Allied Health Education center, Eastern Virginia Medical Authority.
PUBLICATIONS: "Observations" - semiannual newsletter of the School of Health Related Professions and Natural Sciences.
ANNUAL EVENTS: 1 conference; 3 lectures; 5 workshops; 5 continuing education programs.
DEGREES: B.S. in Food Service Management; B.S. in Nutrition/Dietetics.
COURSES: Food Cost Control; Introduction to Dietetics; Nutrition for the Life Cycle; Food Service Management; Scientific Food Development; Quantity Food Preparation; Advanced Nutrition; Food Service Systems; Clinical Terminology and Procedures; Prescriptive Dietary Planning; Prescriptive Dietary Planning for the Elderly; Nutrition in Disease; Professional Seminar; Community Nutrition Programs for the Elderly; Rural/Urban Nutrition; and Geriatric Nutrition.
ADA TRAINING: Offered.
FACULTY: 1 full-time in Food Science; 1 part-time in Food Service Management; 1 full-time in Nutrition/Dietetics

421*
NORTHERN VIRGINIA COMMUNITY COLLEGE (NVCC)
8333 Little River Tpk.
Annandale, VA 22003
Contact Person : Howard E. Reichbart
Telephone : 703-323-3457

PURPOSE: The Hotel, Restaurant and Institutional Management/ Food Service Curriculum at Northern Virginia Community College is designed to enable the student to enter e xecutive training and management positions in food service operations such as restaurants, school and colleges, hotels, clubs, health care facilities, government and industry. Are affiliated with the Virginia Community College System.
COMMITTEES: Curriculum Advisory Committee.
ANNUAL EVENTS: 20 lectures; 30 continuing education programs.
LIBRARY: Open to the public. Interlibrary loan service.
EDUCATIONAL SUPPORT: 15 scholarship(s) per year at $1500.
DEGREES: A.A. in Food Service Management.
COURSES: Intro. to Hotel/Rest. Mgmt.; Food Science I, II, III; Prin. of Food Prep. I, II; Prin. of Commercial Food Prep.; Prin. of Baking; Hotel/Rest. Org. & Mgt. I, II; Labor Cost Control; Food & Bev. Cost Control I, II; Menu Planning & Food Merch.; Cafeteria Mgmt.; Cafeteria Record Keeping; Equipment Layout-Design; Food Purchasing;

Personnel Mgt. for HRF and Catering.
FACULTY: 1 part-time in Food Science; 4 full-time, 15 part-time in Food Service Management.

22
THOMAS NELSON COMMUNITY COLLEGE
P.O. Box 9407
Hampton, VA 23670

Contact Person : J.P. Hill, PhD.
Telephone : 804-825-2700

PURPOSE: Offers college credit courses for a one-year certificate or a two-year Associated Degree in Hotel, Restaurant and Institutional Management.
COMMITTEES: Food Service Management Advisory Committee.
LIBRARY: 47000 volumes, 650 journal subscriptions, 900 audiovisual programs. Open to the public. Interlibrary loan servi
EDUCATIONAL SUPPORT: 1 grant(s) per year at $7000.
DEGREES: A.A. in Food Service Management.
COURSES: Food Science I, II, III; Organization and Management I, II; and Nutrition I, II.
FACULTY: 1 part-time in Food Science; 1 part-time in Food Service Management; 1 part-time in Nutrition/Dietetics.

23
UNIV. OF MARYLAND COLLEGE OF AGRICULTURE
College Park, MD 20742

Contact Person : None listed.
Telephone : 301-454-3708

PURPOSE: The Food Science program is concerned with all aspects of presenting food to the consumer in a manner that would satisfy man's needs both nutritionally and aesthetically. Curriculum is based on the application of the fundamentals of the physical and biological sciences to the production, procurement, preservation, processing, packaging and marketing of foods. Specialization is offered in the areas of meats, milk and dairy products, fruits and vegetables, poultry and poultry products, and seafood products.
DEGREES: B.S., M.S., Ph.D. in Food Science.
COURSES: Contemporary Food Industry and Consumerism; Special Problems in Food Science; Principles of Food Processing; Food Chemistry; Food Product Research and Development; Food Chemistry Laboratory; Food Microbiology; Food Quality Control; Food Microbiology Laboratory; Horticultural Products Processing; Dairy Products Processing; Technology of Market Eggs and Poultry; Meat and Meat Processing; and

Seafood Products Processing.
FACULTY: 6 full-time, 9 part-time in Food Science.

24
UNIV. OF MARYLAND DEPT FOOD NUTR & INST ADM
College Park, MD 20742
Contact Person : E.S. Prather
Telephone : 301-454-2139

PURPOSE: The Department of Food, Nutrition and Institution Administration offers several degree programs in food and nutrition at the undergraduate and graduate levels.
PUBLICATIONS: Undergraduate and graduate catalogs - annually.
ANNUAL EVENTS: 3 lectures; 2 seminars.
RESEARCH: 1-10 projects under $10,000 funded per year.
LIBRARY: Open to the public. Interlibrary loan service.
EDUCATIONAL SUPPORT: 2 fellowship(s) per year.
DEGREES: B.S., M.S. in Food Science; B.S., M.S. in Food Service Management; B.S., M.S., Ph.D. in Nutrition/Dietetics.
COURSES: At the undergraduate level, offers courses in major areas of study - Experimental Foods; Community Nutrition; Nutrition Research; Dietetics; Coordinated Dietetics (including internships); Institution Administration. At the graduate level leading to the M.S. offers courses in three major areas: Nutrition; Institution Administration; Food; leading to the Ph.D., offers courses in Nutritional Science.
ADA TRAINING: Offered.
FACULTY: 2 full-time in Food Science; 2 full-time in Food Service Management; 9 full-time in Nutrition/Dietetics.

25
UNIV. OF MARYLAND EASTERN SHORE
Food Science Dept.
Princess Anne, MD 21853
Contact Person : Moses W. Vaughn, PhD
Telephone : 301-651-2200

PURPOSE: Conducts federally funded research on the nutritive value of pork by-products. Affiliated with the University of Maryland, College Park, MD.
LIBRARY: Open to the public. Interlibrary loan service.
FACULTY: 1 full-time in Food Science.

26
UNIVERSITY OF VIRGINIA DEPT. OF MEDICINE
Charlottesville, VA 22908
Contact Person : Munsy S. Wheby
Telephone : 804-924-2425

PURPOSE: Clinical nutrition course offered in the Medical school curriculum
ANNUAL EVENTS: 18 conferences.
LIBRARY: Interlibrary loan service.
FACULTY: 1 full-time in Nutrition/Dietetics.

27
VPI & STATE UNIV. FOOD SCIENCE & TECHNOLOGY
Contact Person : R.V. Lechowich, PhD.
Blacksburg, VA 24061
Telephone : 703-961-6806

PURPOSE: The Food Science and Technology Department of Virginia Polytechnic Institute and State University conducts research related to food safety (food microbiology), food biochemistry/ chemistry and effects of food processing upon food constituents. Telephone : 202-789-5680

PURPOSE: The Clearinghouse on Infant Feeding and Maternal Nutrition fosters a better understanding of infant feeding and other aspects of infant and maternal nutrition in developing countries. Funded by the U.S. Agency for International Development and established by the American Public Health Association, The Clearinghouse collects technical and medical materials on infant and maternal nutrition and information on the legislative/government policies regarding maternity leave, etc.
CLIENTELE: Public; physicians, dentists, nurses; researchers; Developing countries..
SERVICE AVAILABILITY: Monday-Friday.
CONTACT METHOD: By appointment.
PUBLICATIONS: Newsletter, "Mothers and Children" - three times per year, free to health professionals.
LIBRARY: 100 volumes, 100 journal subscriptions, 999 vertical file items. Open to the public. Interlibrary loan servic

130
CONSUMER EDUCATION RESOURCE NETWORK (CERN)
1500 Wilson Blvd. #900
Rosslyn, VA 22209
Contact Person : L. Gayle Royer
Telephone : 703-522-4616

PURPOSE: A national resource and service network for the consumer education field, designed to meet the informational needs of consumer educators. Identifies and collects current information on all aspects of consumer education and provides access through its computerized database. Maintains a comprehensive reference and referral library. Funded by the Office of Consumer Education of the Department of Education and is operated by the Inter America Research Associates Inc. Promotes networking among consumer education interest groups nationwide. Provides a toll-free number for further information 800-336-0223.
CLIENTELE: Public; educators; business and industry; researchers; Consumer groups..
SERVICE AVAILABILITY: Monday-Friday.
CONTACT METHOD: Walk-in.
USER FEE: For data base.
LIBRARY: Open to the public. Interlibrary loan service.

131
LIBRARY OF CONGRESS
10 First St., SE
Washington, DC 20540

Contact Person : Daniel J. Boorstin
Telephone : 202-287-5000

COLLECTION: The Library of Congress houses more than 74 million items in the following categories: books; journals; newspapers; manuscripts; maps; music; phonographic discs; tapes and wires; photographic negatives; prints and slides; prints and drawings; motion picture reels; microfilm; and posters. Two of the Library's many divisions are of special interest in terms of food and nutrition. The Rare Book and Special Collections Division has among its many collections the 5,911 piece Katherine Golden Bitting Collection in Gastronomy. The Science and Technology Division has over three million items relating to the physical, earth, biomedical and engineering sciences. This division also operates the National Referral Center which assists people who have specialized questions by referring them to organizations that can answer these questions. (Telephone: 202-426-5670).
SERVICES: The Library Staff performs research for members and Committees of Congress in connection with their legislative duties. The Library's reference facilities and staff are available to the public. Photocopying facilities are also available. Interlibrary Loans are provided on a limited basis.
PUBLICATIONS: Free desriptive brochures of all the Library's divisions are available upon request.

132
NATIONAL AGRICULTURAL LIBRARY (NAL)
Route 1
Beltsville, MD 20705

Contact Person : Dr. Richard A. Farle
Telephone : 301-344-4248

COLLECTION: NAL has 1.3 million volumes in the field of agriculture, including botany, chemistry, entomology, forestry, food and nutrition, law, economics, water resources and US Department of Agriculture publications. Produces the AGRICOLA bibliographic database. Also includes the Food and Nutrition Information Center (see entry for USDA/SEA/Food & Nutrition Information Center, below).
SERVICES: Reference; Interlibrary Loan; Photocopying facilities; Automated search services. Open to the public. Hours 8:00 AM - 4:30 PM Monday through Friday.

133
NATIONAL DIABETES INFORMATION CLEARINGHOUSE

805 15th St., NW 500
Washington, DC 20005

Contact Person : Patricia A. Auflick
Telephone : 202-842-7630

PURPOSE: Identifies and collects information on diet and nutrition that health care educators can use to instruct diabetics. Compiles, publishes and distributes information to health educators.
CLIENTELE: Physicians, dentists, nurses; food service personnel; educators; Diabetes groups.
SERVICE AVAILABILITY: Monday-Friday.
CONTACT METHOD: Walk-in; by appointment; by referral.
PUBLICATIONS: "Cookbooks for Diabetics" - updated annually, free; "Diet and Nutrition for People with Diabetes" - updated annually, free.
ANNUAL EVENTS: 4 conferences; 1 workshop.
LIBRARY: 90 journal subscriptions, 300 audiovisual programs, 900 vertical file items. Open to the public.

134
NATIONAL HEALTH INFORMATION CLEARINGHOUSE
1555 Wilson Blvd. #600
Rosslyn, VA 22209

Contact Person : Jory Barone
Telephone : 703-522-2590

PURPOSE: A central referral source for inquiries on health information. Developed to help the public locate health information. Funded by the Office of Health Information, Health Promotion, Physical Fitness and Sports Medicine (Public Health Services), Dept. of Health and Human Services.
CLIENTELE: Public; physicians, dentists, nurses.
SERVICE AVAILABILITY: Monday-Friday.
CONTACT METHOD: Walk-in; by appointment; by referral.
LIBRARY: 300 volumes, 150 journal subscriptions, 999 vertical file items. Open to the public. Interlibrary loan servic
COURSES: Several forums per year in order for groups that provide information to consumers to share ideas.

135
NATIONAL LIBRARY OF MEDICINE (NLM)
8600 Rockville Pike
Bethesda, MD 20014

Contact Person : Martin M. Cummings,
Telephone : 301-496-6308

COLLECTION: NLM has two and one-half million items in the field of biomedicine, representing the largest such collection in the world. Includes books, journals, theses, microforms, audiovisual

materials, manuscripts, prints and photographs.
SERVICES: Reference; Interlibrary Loan; Photocopying facilities; Automated Search Services such as MEDLINE and TOXLINE. Open to the public. Regular hours Monday through Friday 8:30 AM - 9:00 PM, Saturday 8:30 AM - 5:00 PM; Summer hours (Memorial Day - Labor Day) Monday through Saturday, 8:30 AM - 5:00 PM.
PUBLICATIONS: Indexes for the biomedical field such as Index Medicus. in addition to a number of specialized subject bibliographies.

136
USDA/SEA FOOD & NUTRITION INFORMATION CENTER
Nat'l Agric Lib. #304
Beltsville, MD 20705
Contact Person : Robyn C. Frank
Telephone : 301-344-3719

PURPOSE: The Food and Nutrition Information Center (FNIC), a part of the National Agricultural Library, is a specialized information center servicing primarily food and nutrition professionals throughout the U.S. The Center collects, maintains, and lends a collection of print and non-print materials on human nutrition research and education, food service management, and food technology. Reference and referral services also provided by telephone, letter and in person. FNIC contributes citations and abstracts to the AGRICOLA database.
CLIENTELE: Public; senior citizens; physicians, dentists, nurses; food service personnel; educators; business and industry; trade representatives; researchers; nutritionists, dietitians.
SERVICE AVAILABILITY: Monday-Friday.
CONTACT METHOD: Walk-in; by appointment; by referral.
PUBLICATIONS: FNIC Brochure - distributed free of charge; FNIC Catalogs, supplements to the catalog, and audiovisual catalogs - available from the Oryx Press, 2214 N. Central Ave, Suite 103. Phoenix, AZ 85004. Tel. 602-254-6156; The Audiovisual Resource Catalog - $12.50 plus postage and handling from the Oryx Press.
LIBRARY: 5000 volumes, 150 journal subscriptions, 900 audiovisual programs. Open to the public.

137
AGRICOLA
US National Agriculture Library
Technical Information Systems
Room 100
Beltsville, MD 20705
301-344-3778

TYPE: Bibliographic
SCOPE: Contains references to the journal literature, government reports, serials, monographs and pamphlets in agriculture and related areas. International in coverage. Corresponds in part to the printed Bibliography of Agriculture. The Food and Nutrition Information Center's subfile deals primarily with human nutrition research and education, food service management, consumer protection, food and nutrition policy, US nutrition programs, diet and diet-related diseases, physiology of human nutrition, food composition and home economics.
COVERAGE: 1970 to date
UPDATING: 12,000 records per month
ONLINE SERVICES: BRS, LIS, SDC

138
ASFA (AQUATIC SCIENCES AND FISHERIES ABSTRACTS)
Food and Agricultural Organization
Fishery Information, Data and Statistics
Via delle Terme di Caracella
00100 Rome, Italy

TYPE: Bibliographic
SCOPE: Contains citations and abstracts to worldwide literature on science, technology and management of marine and freshwater environments. Provides coverage on aquatic products used as food, including: composition and properties of primary and secondary edible products; nutritional changes to properties through storage, cultural practices, pollution, additives and spoilage; process engineering; processing technology; and quality control. Corresponds to the printed Aquatic Services and Fisheries Abstracts.
COVERAGE: January 1978 to date.
UPDATING: 2,000 records per month.
ONLINE SERVICES: LIS.

139
BIOSIS PREVIEWS

Bio Science Information Service
2100 Arch Street
Philadelphia, PA 19103
215-568-4016

TYPE: Bibliographic
SCOPE: Contains citations to the world's literature in the life sciences. Corresponds to the printed indexes, Biological Abstracts (BA) and Biological Abstracts/RRM Citations derived from 8000 periodicals, as well as books, monographs, conference prodeedings, symposia and technical reports. Subject coverage in the area of food and nutrition includes: food technology (processing, preparation, preservation, handling); biochemical and chemical reactions of food products; and human and animal nutrition, such as the nutritional value of food and the therapeutic use of vitamins and other nutrients.
COVERAGE: 1969 to date.
UPDATING: 13,500 records from BA per month; 10,000 records from BA/RRM per month.
ONLINE SERVICES: BRS, LIS, SDC

140
CA SEARCH
Chemical Abstracts Service
The Ohio State University
P.O. Box 3012
Columbus, OH 43210
614-421-0940

TYPE: Bibliographic
SCOPE: Contains citations to the worldwide literature in chemistry and biochemistry. Covers 14,000 journals in addition to books, monographs, conference proceedings, technical reports and patents. Corresponds to the printed Chemical Abstracts. Topics covered in the areas in food include: technological aspects of food chemistry; herbicide and pesticide residues on food or food products; food preservation and packaging; application of microorganisms to food production; food additives; edible fats and oils; and methods for determining toxic contaminants of foods. The section on animal nutrition includes: studies in all species (except protozoa) relating to vitamins, minerals, carbohydrates, lipids, proteins and amino acids; evaluation of nutritive value of foods; nutritional balance and interrelations; nutrient requirements and utilization; energy values of food constituents; and diseases directly resulting from nutritional disorders.
COVERAGE: 1967 to date (LIS, SDC); 1970 to date (BRS).

UPDATING: 15,000 records semi-monthly.
ONLINE SERVICES: BRS, LIS, SDC

141
CAB ABSTRACTS
Commonwealth AGriculture Bureaux
Farnham House, Farnham Royal
Slough, England SL2 3BN
Farnham Common 2281

TYPE: Bibliographic
SCOPE: Contains citations and abstracts of the world literature in agricultural sciences and related areas of applied biology. Subject coverage includes animal breeding, bees, dairy science, crops, forestry, helminthology, horticulture, veterinary medicine, nutrition, plant breeding, protozoology, mycology, plant pathology, soils and fertilizers, and weeds. In CAB's Nutrition Abstracts section both human and animal nutrition were combined in the 1973-76 publication; in 1977 nutrition was divided into two major categories, (1) human and experimental and (2) livestock feeds and feeding. Human and Experimental nutrition now includes technique, foods, physiology, biochemistry, human health and nutrition, and nutritional disorders.
COVERAGE: 1973 to date.
UPDATING: 10,800 records per month.
ONLINE SERVICES: LIS

142
CDI (COMPREHENSIVE DISSERTATION INDEX)
University Microfilms International, Inc.
300 N. Zeeb Road
Ann Arbor, MI 48108
313-761-4100

TYPE: BibliographiC
SCOPE: Contains citations to all dissertations accepted for doctoral degrees by accredited US academic institutions in over 125 non-US institutions. Corresponds to the printed Dissertation Abstracts International (DAI) and American Doctoral Dissertations (ADD). Subject areas of interest include food technology, nutrition, home economics, horticulture and various agricultural topics.
COVERAGE: 1861 to date.
UPDATING: 3000 DAI records per month; 10,000 ADD records per year.
ONLINE SERVICES: BRS, LIS, SDC

143
COMPENDEX (COMPUTERIZED ENGINEERING INDEX)
Engineering Index, Inc.
345 E. 47th Street
New York, NY 10017
212-644-7881

TYPE: Bibliographic
SCOPE: Contains citations to the world literature in engineering and technology. Corresponds to the printed Engineering Index Monthly. Subject areas of interest include agricultural engineering and food technology. The food technology sections cover food additives, food industry, food manufacture, food packaging, food preservation, food processing, and food products.
COVERAGE: 1970 to date.
UPDATING: 8600 records per month.
ONLINE SERVICES: LIS, SDC

144
CONFERENCE PAPERS INDEX
Data Courier, Inc.
620 S. Fifth Street
Louisville, KY 40202
502-582-4111

TYPE: Bibliographic
SCOPE: Contains citations to scientific and technical papers presented at over 1000 regional, national and international meetings. Corresponds to the printed Conference Papers Index. The subject coverage of interest in food and nutrition focuses on the general topic of food technology.
COVERAGE: 1973 to date.
UPDATING: 8300 records per month.
ONLINE SERVICES: LIS, SDC

145
CRIS (CURRENT RESEARCH INFORMATION SYSTEM)
Technical Information Systems
US National Agriculture Library
Beltsville, MD 20705
301-344-3778

TYPE: Referral
SCOPE: Contains citations to research in progress sponsored or

conducted by the USDA research agencies, State Agricultural experiment stations, State forestry schools and other institutions with programs related to agriculture. Approximately 2500 projects currently in the CRIS file relate to food science and nutrition.
COVERAGE: July 1974 to date.
UPDATING: 2000 records per month.
ONLINE SERVICES: LIS

146
EPB (ENVIROMENTAL PERIODICALS BIBLIOGRAPHY)
Environmental Studies Institute
2074 Alameda Padre Sierra
Santa Barbara, CA 93103
805-965-5010

TYPE: Bibliographic
SCOPE: Contains citations to the literature on the environmnet, human ecology, nutrition and health. Corresponds to the printed Environmental Periodicals Bibliography.
COVERAGE: 1973 to date.
UPDATING: 4000 bimonthly.
ONLINE SERVICES: LIS

147
ERIC (EDUCATIONAL RESOURCES INFORMATION CENTER)
US National Institiute of Education
ERIC Processing and Reference Facility
4823 Rugby Ave., Suite 303
Bethesda, MD 20014
301-656-9723

TYPE: Bibliographic
SCOPE: Contains citations and abstracts of the journal and report literature in the field of education and education-related areas. Corresponds to the printed Resources in Education (report literature) and the Current index to Journals in Education (journal literature). Subjects of interest in food and nutrition include child nutrition programs, foods instruction, nutrition education, food service management, career education and training.
COVERAGE: 1966 to date.
UPDATING: 3200 records per month.
ONLINE SERVICES: BRS, LIS, SDC

148
EXCERPTA MEDICA
P.O. Box 1126
1000 BC Amsterdam
The Netherlands
020-264438

TYPE: Bibliographic
SCOPE: Contains citations and abstracts to the world literature in clinical medicine and related basic research. Corresponds to the print versions of 60 abstract journals and 2 indexes. Topics related to food and nutrition are covered in the areas of child nutrition, maternal nutrition, over-nutrition, food habits, nutritional deficiencies, nutritional status and the biochemistry of food consumption.
COVERAGE: 1969 to date.
UPDATING: 5000 records per week.
ONLINE SERVICES: LIS

149
FOODS ADLIBRA
K & M Publications, Inc.
2000 Frankfort Ave.
Louisville, KY 40206
502-897-6736

TYPE: Bibliographic
SCOPE: Contains citations and abstracts to the US journal literature on research and development in food technology and packaging. Covers nutritional and toxicological information related to each new food product introduced since 1974.
COVERAGE: 1974 to date.
UPDATING: 2000 records per month.
ONLINE SERVICES: LIS

150
FSTA (FOOD SCIENCE AND TECHNOLOGY ABSTRACTS)
International Food Information Service
Lane End House
Shorfield, Reading, England RG2 9BB
(0734) 883895

TYPE: Bibliographic
SCOPE: Contains citations and abstracts to the world literature in

the areas of food science and technology. Covers journals, patents, textbooks and standards. Four topics in the area of food are predominant and include: milk and dairy products; alcohol and non-alcoholic beverages; fruit, vegetables and nuts; and meat, poultry and game. Of interest also are the topics of food additives, quantity food production, bulk storage of food, and large scale cooking of processed foods.
COVERAGE: 1969 to date.
UPDATING: 1600 per month.
ONLINE SERVICES: LIS, SDC

151
GPO MONTHLY CATALOG
US Government Printing Office
Superintendant of Documents
Washington, DC 20402

TYPE: Bibliographic
SCOPE: Contains citations to the publications of the US Government agencies, including the US Congress. Corresponds to the printed Monthly Catalog of the United States Government Publications. Subjects covered include agriculture, health, consumer issues, economics, energy, environment, public affairs, taxation and law.
COVERAGE: July 1976 to date.
UPDATING: 1700 records per month.
ONLINE SERVICES: BRS, LIS

152
MEDLINE
US National Library of Medicine
8600 Rockville Pike
Bethesda, MD 20209
301-496-6193

TYPE: Bibliographic
SCOPE: Contains citations and abstracts from the world's biomedical and health related literature. Covers 3,300 journals and selected monographs. Corresponds to the printed Index Medicus, Index to Dental Literature and International Nursing Index. Subject coverage in nutrition and diet places emphasis on the clinical aspects, relating to disease, diet therapy and nutrition disorders. Both clinical and basic research is covered.
COVERAGE: 1966 to date.
UPDATING: 20,000 records per month.

ONLINE SERVICES: BRS, NLM.

153
MEDOC
Spencer S. Eccles Health Sciences Library
University of Utah
Salt Lake City, UT 84112

TYPE: Bibliographic
SCOPE: Contains citations to health-related government documents. Provides comprehensive covereage in the medical and health sciences, Food and Drug Administration materials, mental health and biomedical engineering. Selected coverage is given for material in nutrition, among other subjects.
COVERAGE: 1976 to date
UPDATING: Quarterly
ONLINE SERVICES: BRS

NTIS (NATIONAL TECHNICAL INFORMATION SERVICE)
US National Technical Information Service
5285 Port Royal Road
Springfield, VA 22161
703-557-4600

TYPE: Bibliographic
SCOPE: Contains citations and abstracts of unrestricted technical reports from US and non-US government-sponsored research. Corresponds to the printed Government Reports Announcements and Index. Topic areas of interest include food technology and food service.
COVERAGE: 1964 to date
UPDATING: 2,300 records semi-monthly
ONLINE SERVICES: BRS, LIS, SDC

155
POPULATION BIBLIOGRAPHY
Carolina Population Center
University of North Carolina
Chapel Hill, NC 27514

TYPE: Bibliographic
SCOPE: Contains citations to the literature on population research and studies with emphasis on the socio-economic aspects rather than

biomedical. Covers journals, monographs, technical reports, government documents, conference proceedings, dissertations and some unpublished reports. Primarily centered on the US but some materials on developing countries are also included. Topics related to food and nutrition focus on the relationship of population to food and nutrition, fertility and nutrition, and the world food situation.
COVERAGE: 1966 to date
UPDATING: 800 records bimonthly
ONLINE SERVICES: LIS

156
SCISEARCH
Institute for Scientific Information
University City Science Center
3501 Market Street
Philadelphia, PA 19104
215-386-0100

TYPE: Bibliographic
SCOPE: Contains citations to the worldwide literature in a broad range of scientific and technologic disciplines. Corresponds to the printed Science Citation Index. Covers 3,000 journals and over 1,200 multi-authored books. Subject coverage includes food science and human nutrition.
COVERAGE: 1974 to date(LIS); 1978 to date (BRS)
UPDATING: 42,000 records per month
ONLINE SERVICES: BRS, LIS

ADA-approved training	9,15,18,28,68,85,87,90, 105,109,121
Adolescents	35
Adult nutrition education	6
Advertising	31
Agricultural techniques	23
Allergy diets	1
Anorexia nervosa	11,66
Baby foods	2
Baked goods	120
Bakers	120
Behavior modification	64,65,66
Berries	115
Beverages	97
Birth defects	108
Blueberries	115
Breakfast cereals	79,93
Caloric values	1
Catering	103
Certification	16,22,80
Chemicals	42
Chemists	79
Child development	68
nutrition	56,57,68,90,129
Children	35,75,83,129
Chitterlings	25
Clinical nutrition	11,14,15,26,39,40,44,80
Complaints	31,37
Congregate meals	58,59
Consumer advocacy	30,37,71,73
education	1,3,4,5,60,70,72,122,130
Cookbooks	133
Counseling	60,63,64,65,68,69,82,83, 84,96
Dairy foods	94,95,113
Day camp programs	83
care services	75
Developing nations	107,129
Diabetic diets	81,82,83,84,133
Dietary goals	89
standards	99

	Entry number(s)
Dietetic internship program	15
Dietetics	13,20,24,63,85,105,114,125
Diets	64,65,69
Disease prevention	38
Drug standards	98
Eating habits	56
Educational materials	48,96,136
Elderly nutrition	6,20,33,34,38,45,53,58,59, 62,66,67,72
Environmental factors	42,45
Exercise	65
Expanded food and nutrition education program	55
Extension agents	55,60
Family nutrition	35
Feeds	45
Food additives	73
chains	3,4
chemistry	23,27
distribution	32,100,102
inspection	37
manufacturers	106
policy	74
preparation	5,16,19
prices	46,101
processing	23
production	32,97
programs	33,34,35,51,54,58,59,67, 75,90
purchasing	5
quality	23
research	25,27,72,95,96,97,109,110, 111,115,123,127,136
reserves	30,99
safety	27,37,70,72,98,109
sanitation	8
science	20,23,24,27,28
service	102,121
service management	13,16,19,20,24,28,136
service occupations	9,12,21,22
service training	52,62,65
stores	3,4,101
suppliers	95
technology	105,107
Frozen foods	110
Fruits	118,123

Entry number(s)

Gastronomy 131
Gourmet cooking 131
Governmental role 32,45,46,47
Graduate study 17,24

Head Start 35
Health education 29, 134
Health programs 43
Hearings 46, 47
Heart disease 87
Home delivered meals 58,67,72
economics 13
economics education 103
economists 55
health aides 63
health services 63
Hotel food service 21,22
Human nutrition research 10,14,49,50,85,91,96,122, 136
Hunger 30,75,76,128
Hypoglycemia 77

Infant feeding 129
formula 2
nutrition 2,38,40,51,129
Information dissemination 45,48,70,134,136
Instant nonfat dry milk 86
International trade 32
Institutional feeding 21,22,24,104
Instructional aids 116

Labeling 36,71
Labor unions 97
Legal problems 71
Library of Congress 131
Livestock 111
Lobby groups 72,74,75,102,113
Low income groups 5,35,55
Lunch 54,53,90

Macaroni 112
Malnutrition 76,128
Marketing 32,45,118

Entry number(s)

Maternal and child health 78,129
Maternal nutrition 40,78,129
Meals on wheels 33,67
Meat 111
Medical education 10,11,14,26
Mental retardation 68
Menus 119
Metabolism 11,77
Military nutrition 44
Milk 86,113,127
Milk programs 54

National Agriculture Library 132
National Library of Medicine 135
National School Breakfast Program 54
National School Lunch Program 54,75
National School Lunch Week 90
NET 52,57
Noodles 112
Nursing education 50
Nutrient requirements 80
utilization 40
values 1,25,112
Nutrition education 3,4,32,36,38,46,52,61,64, 65,70,89,96,99,114,116, 118,122,124,136
policy 89,114
research 36,111
Nutritional assessment 11,68
Nutritionists 43
Nuts 123

Obesity 11,38,66
Occupational Therapy 63

Physical fitness 29
Population growth 76
Pork 25
Potatoes 117
Pregnancy and nutrition 108
Prenatal nutrition 40,51,108
Preschool children 54
Public health 17,89
Public health nutritionists 43

	Entry number(s)
Recipes	1,86,92,110,115,133
